

GT-N STEERING WHEELS

EUROPEAN LEADER OF ADVANCED STEERING WHEEL FOR MOTORSPORT

The highest level of championships (Formula E, F2, F3, Alpine, 2020 LMP3) use XAP instrumented steering wheels.

For more than 15 years, our technology has been racing in the severest conditions of vibrations, humidity and temperature.

Even if time is changing, we never stop improving our steering wheels to stick to the evolution.

We are proud of the fact that during the last past years most of Formula 1 drivers learned and progressed with XAP steering wheels.

Your steering wheels will never stop improving, adding new features like Embedded Virtual channels or DBC file import/export.

XAP technology will always stay one step ahead of future change.

KEEP PUSHING...

FULLY CUSTOMISABLE STEERING WHEELS

CHOICE OF NUMBER OF PADDLE SHIFTERS:

0 to 2 paddle shifters (UP/DOWN...)

Hall effect sensor technology contactless ensuring reliability and durability.

CHOICE OF NUMBER OF PUSH BUTTONS:

6 to 8 front face illuminated buttons, with or not protection.

CHOICE OF THE NUMBER OF ROTARY SWITCHES:

2 or 4 rotary switches of 10 positions. They use a non-contact Hall effect technology for excellent mechanical vibration.

CHOICE OF STEERING COLUMN MOUNTING TO USE OF MOST QUICK RELEASES AVAILABLE ON THE MARKET:

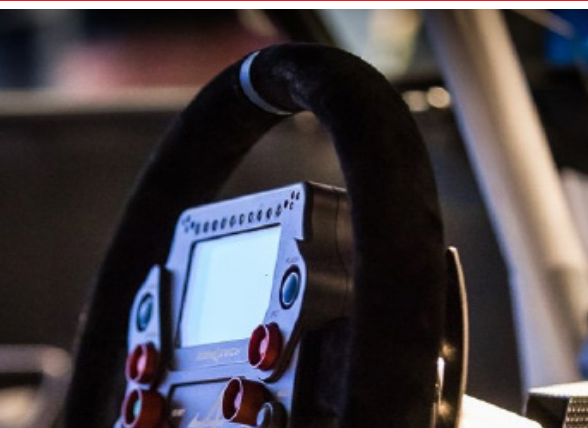

XAP SPA Design, Momo,...

CUSTOMISATION OF THE FRONT FACE:

It is possible to laser engrave your logo or an image on the front face so that your steering wheel becomes unique. The buttons can be engraved on request. The entire steering can be customized.

COMPATIBLE WITH ANY OF THE ENGINE CALCULATORS AVAILABLE ON THE MARKET:

DTA, Marelli, Motec, Cosworth...

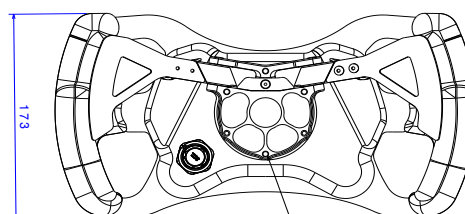

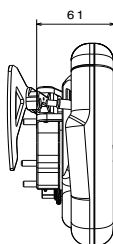

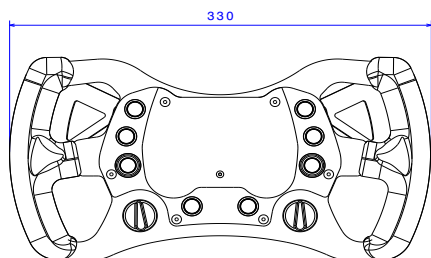

**CRASH
HOMOLOGATION
