

# GT STEERING WHEELS

## EUROPEAN LEADER OF ADVANCED STEERING WHEEL FOR MOTORSPORT

The highest level of championships (Formula E, F2, F3, Alpine, 2020 LMP3) use XAP instrumented steering wheels.

For more than 15 years, our technology has been racing in the severest conditions of vibrations, humidity and temperature.

Even if time is changing, we never stop improving our steering wheels to stick to the evolution.

We are proud of the fact that during the last past years most of Formula 1 drivers learned and progressed with XAP steering wheels.

Your steering wheels will never stop improving, adding new features like Embedded Virtual channels or DBC file import/export.

XAP technology will always stay one step ahead of future change.
