

QUICK RELEASE 3 POINTS

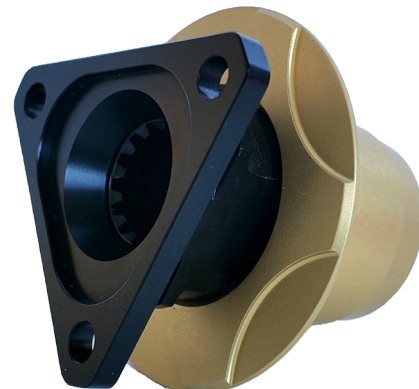

PRECISION ENGINEERING FOR MOTORSPORT PERFORMANCE

For nearly three decades, XAP has been designing and manufacturing advanced mechatronic and electronic systems for the most demanding racing environments – from single-seaters and GT cars to endurance prototypes and special vehicles.

This deep expertise, developed on the world's most competitive circuits, is now combined with full in-house machining and cutting capabilities, enabling the production of precision mechanical components directly within XAP's workshops in Calvisson (France).

The XAP 3-Point Quick Release is fully engineered, machined, and assembled in-house, ensuring complete control over quality, tolerances, and traceability — a hallmark of XAP's racing DNA.

WHEN PRECISION MEANS SAFETY!

WHEN EVERY MILLIMETER MATTERS, TRUST XAP.

UNCOMPROMISING PRECISION:

Zero-play interface for perfect steering feedback and repeatable alignment

ROBUST SAFETY LOCK:

Redundant mechanical locking preventing any accidental release under vibration or load.

FULL FRENCH MANUFACTURING:

CNC machining, surface treatment, and 3D metrology performed internally.

OPTIMIZED ERGONOMICS:

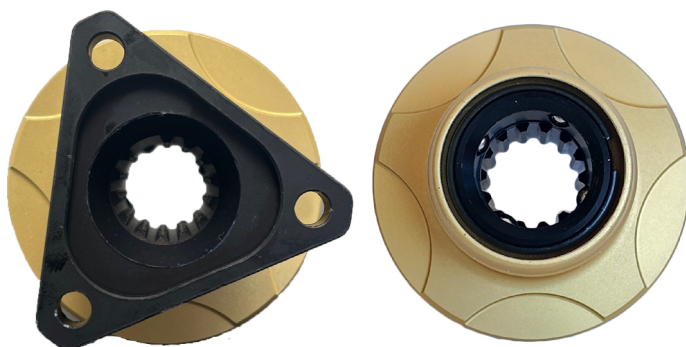

Instant extraction by direct pull, with consistent smoothness after repeated use.

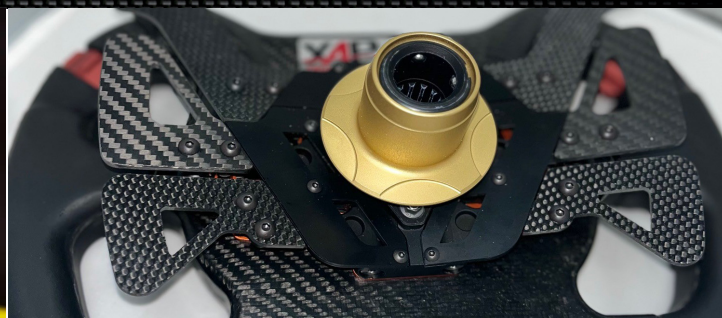

CUSTOM FINISH:

Anodized surface, laser engraving.

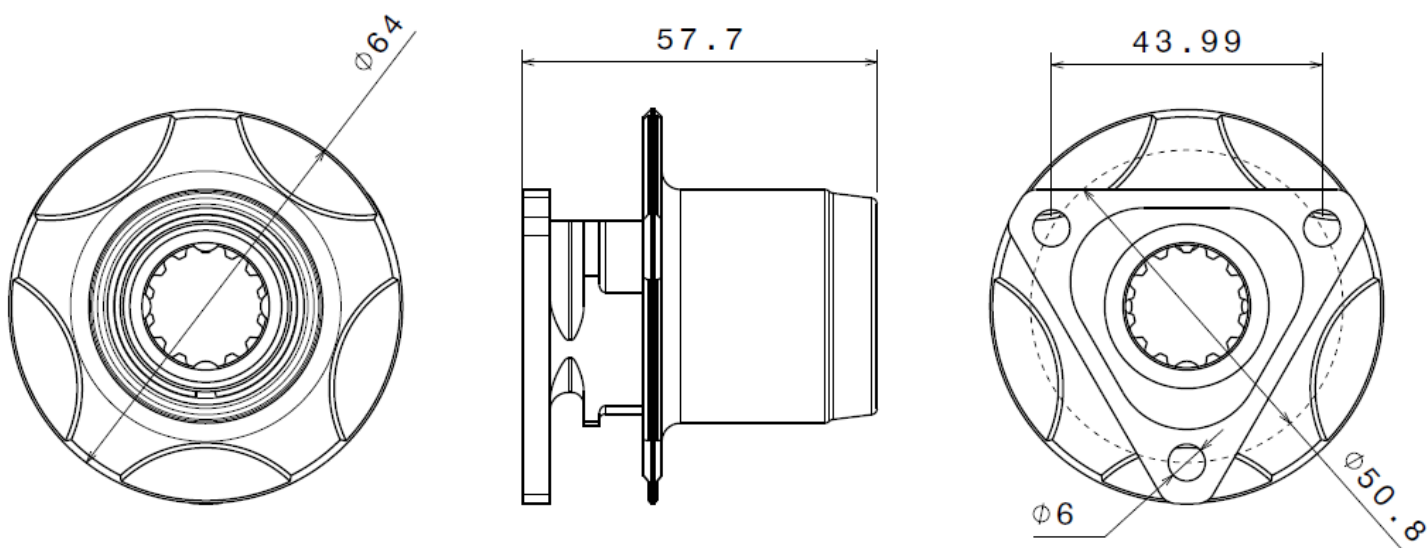

UNIVERSAL FIT:

Compatible with Formula steering wheels (Formula Renault, F2/F3, Formula E, LMP3, etc).

► QUICK RELEASE: **QUICK RELEASE XAP 3 POINTS**

TECHNICAL SPECIFICATIONS

| | |
|--------------------------------|---|
| Main material | CNC-machined aluminum (7075-T6) |
| Surface treatment | Hard or colored anodizing |
| Functional tolerance | < 0.01 mm on splined connection |
| Radial / axial play | 0 µm (zero-play fit) |
| Angular indexing repeatability | < ± 0.05° |
| Mechanical resistance | > 1 000 N·m (traction / torque) |
| Steering wheel compatibility | 3-point type Formula / Compatible with XAP Hub shaft & column |
| Weight | Approx. 115 g |

ENVIRONMENT & COMPLIANCE

| | |
|------------------------|---|
| Compliance | FIA Homologation |
| Origin / manufacturing | 100 % in-house – XAP Calvisson (France) |
