

QUICK RELEASE 6 POINTS KIT GT

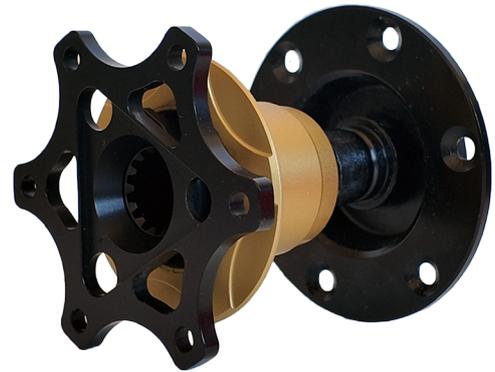

XAP EXPERTISE AT THE SERVICE OF GT PERFORMANCE.

A French designer and manufacturer renowned in motorsport for nearly 30 years, XAP offers a range of Quick Release products based on its expertise in mechatronics and precision machining.

The 6-point GT version has been developed specifically for Grand Touring, Rally and high-performance vehicle applications, where steering wheel rigidity, quick removal and functional safety are essential.

Machined, assembled and inspected in the XAP workshops in Calvisson (France), this system guarantees consistent quality, complete traceability and perfect compatibility with GT mounting standards.

The 6-point GT Quick Release is positioned as a high-end benchmark product for distributors specialising in competition parts, professional simulators and performance vehicles.

FRENCH EXPERTISE RELIABILITY GUARANTEED

100% FRENCH PREMIUM PRODUCT:

Entirely designed, machined and assembled in our workshops.

CONTROLLED MASS PRODUCTION:

The assurance of stable lead times and secure supplies.

RESPONSE TO HIGH DEMAND:

Universal compatibility with GT / Rally / prototypes.

HIGH-END FINISH:

Anodisation and laser engraving.

MAXIMUM RIGIDITY:

No radial or axial play, for precise steering feel.

OPTIMAL ERGONOMICS:

Quick, smooth and intuitive extraction.

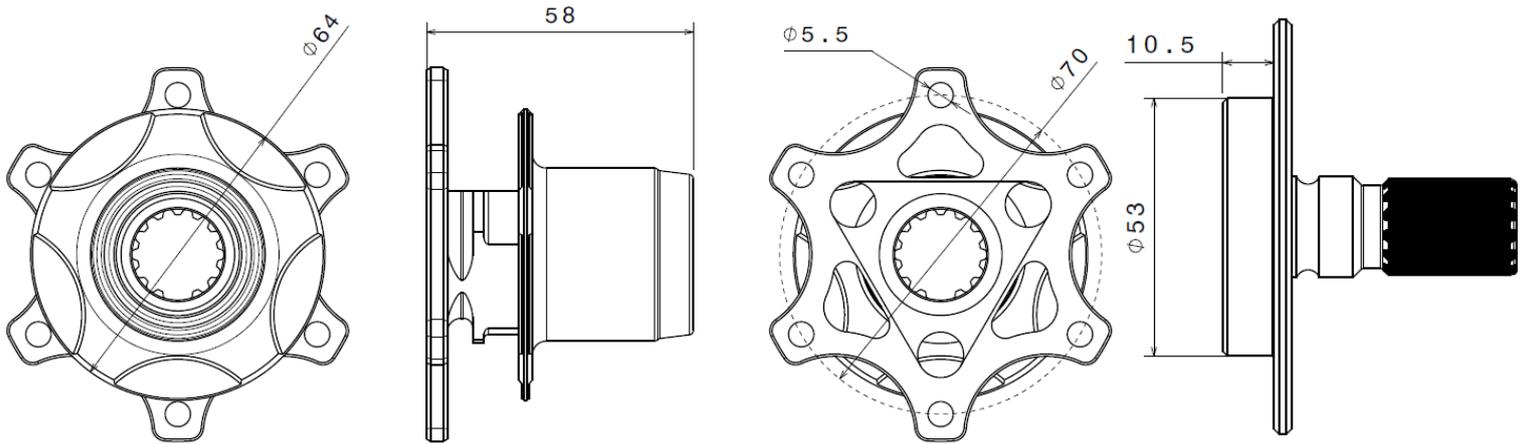

EXCEPTIONAL DURABILITY:

Resistance to fatigue, vibrations and thermal cycles.

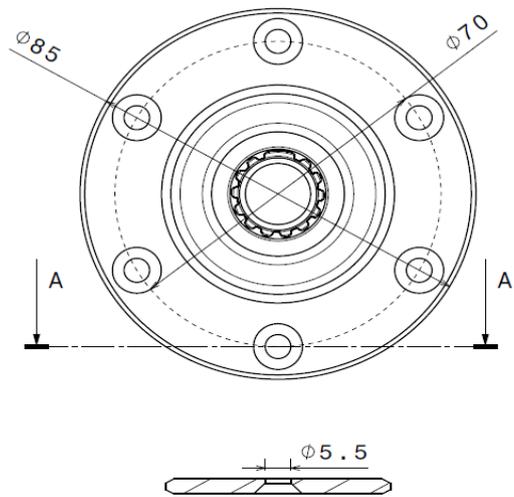

► QUICK RELEASE: **KIT QUICK RELEASE XAP 6 POINTS GT**

TECHNICAL SPECIFICATIONS

Composition	2 parts: steering wheel adapter + column hub
Locking type	Mechanical with 6 redundant pins
Main material	Aluminium 7075 and 42cd4
Surface treatment	Anodising and burnishing
Tolerances	< 0.01 mm on the spline
Axial / radial play	0 µm (no play adjustment)
Angular repeatability	< ± 0.03°
Mechanical strength	> 1,500 N·m (tension/torque)
Compatibility	6 points GT / Rallye / Endurance type
Weight	Approximately 452 gr
