

SWITCH PANELS SP15 & SP20

SWITCH PANELS SP15 & SP20

To create our switch panel for AccessLine, we used our experience for many years in motorsport with some ideas:

- SIMPLE
- RELIABLE
- EASY TO SETUP
- READABLE
- DRIVER FEELING

Based now on our main platform, XAP users will not be lost others will be surprised how easy it is.

Delivered with a bunch of key pads icons, colored or Black & White

If you want to go further, embedded math channels will help you creating your own settings without firmware modification.

You will be your own manager
