

# NT - MODULE

## NT-MODULE

The new NT-Module is a powerful data acquisition tool. This New Technology system can communicate with the great majority of ECU and all CAN equipments.

XAP can deliver a lot of predefined configuration\*.

It is fully configurable, user can easily design their own data parameters with a specific PC software\*\*.

Moreover, NT-Module can communicate with CAN sensor, route data between different connection buses ( CAN 1M , CAN 500hz...)

Its includes an aluminium housing enclosed customizable front face and fitted with one or two autosport connectors.

This design combines the robustness and lightweight.

NT-module is designed and certified to be used at highest level of motorsport.

You can expect a high-quality product and have the benefit of XAP racing experience.

\* You can choose on predefined dash board with base activation key

\*\* options can be purchased with the product or after

## THE BEST TECHNOLOGY AT THE BEST PRICE !

### A SPECIFIC BOOT MODE

Starting in less than one second with all options.

### UP TO 13 ANALOG INPUTS AND 7 DIGITAL INPUTS

### WATERPROOF ALUMINUM HOUSING

### 2 CAN LINES

### 1 LIN LINE

### CAN BRIDGE

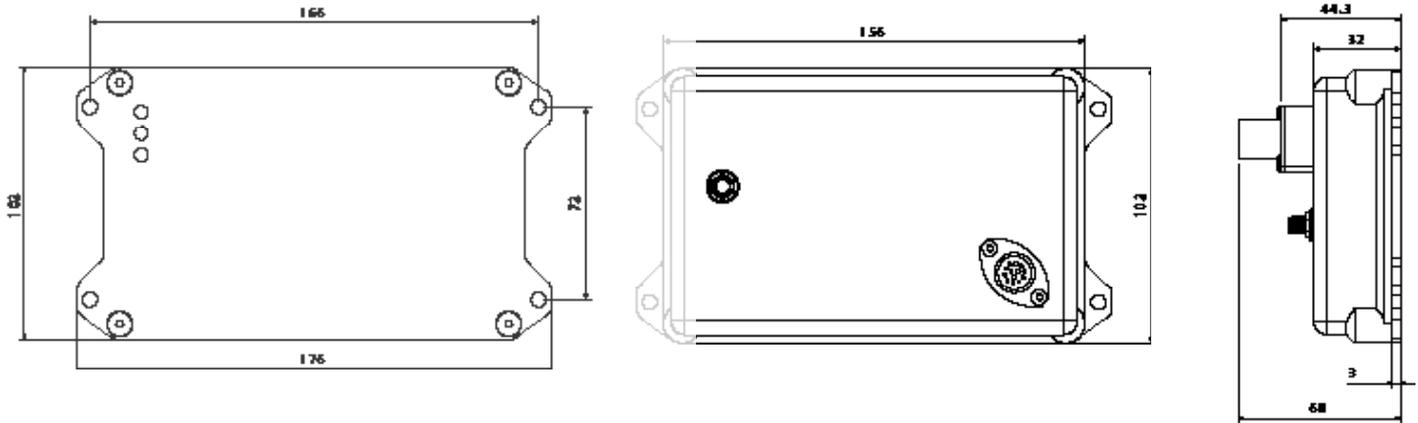

### DBC IMPORT/EXPORT

## EMBEDDED HIGH TECHNOLOGY FOR RALLY, TRACK, OFF ROAD, ATR ...

► MODULE : **NT-MODULE**

**DIMENSIONS**

**TECHNICAL SPECIFICATIONS**

Channels	Max channel 1 to 400
Frequency	none
Alert / Diag	none
Can communication	2x2.0b not terminated
Can Protocol	Fully configurable
WIFI	No
USB	Full speed
Weight	450 gr
Temperature range:	- 20°C to 80°C
Voltage	8 to 19 V/650mA
Data logging memory	none
Waterproof	IP65
