XAP TECHNOLOGY
SOLUTIONS FOR YOUR FUTURE

NT - LOGGER

DATA LOGGER NT

The new DATA LOGGER NT is a powerful data monitor tool. This New Technology system can communicate with the great majority of ECU and all CAN equipements.

XAP can deliver a lot of prédefined configuration*.
It is full configurable, user can easily design their own data parameters with a specific PC software**.

An intégrated 4GB memory record all data defined in your data table.** They can be loaded with a performance analyser software or exported in CSV file format.

The system provide also a unique service for racing performance prediction and analysis with a integrated 20 Hz GPS. An internal cell ensure data sets safety after a sudden switch off of the car.

Moreover the LOGGER can communicate with WIFI sensor, route data between different connection buses (wifi, CAN, ...), and in real time can communicate data to any external device connected with WIFI.

Its includes an aluminium housing enclosed customizable front face and fitted with one or two autosport connectors. This design combines the robustness and lightweight

The LOGGER is designed and certified to be used at higtest level of motorsport. You can expect a high-quality product and have the benefit of XAP racing experience.

* You can choose on prédefined dash board with base activation key
** options can be purchased with the product or after

THE BEST TECHNOLOGY AT THE BEST PRICE !

A SPECIFIC BOOT MODE
(Starting in less than one second wih all options)

UP TO 3 FULLY CONFIGURABLE RGB LEDS

UP TO 12 ANALOG INPUTS AND 5 DIGITAL INPUTS
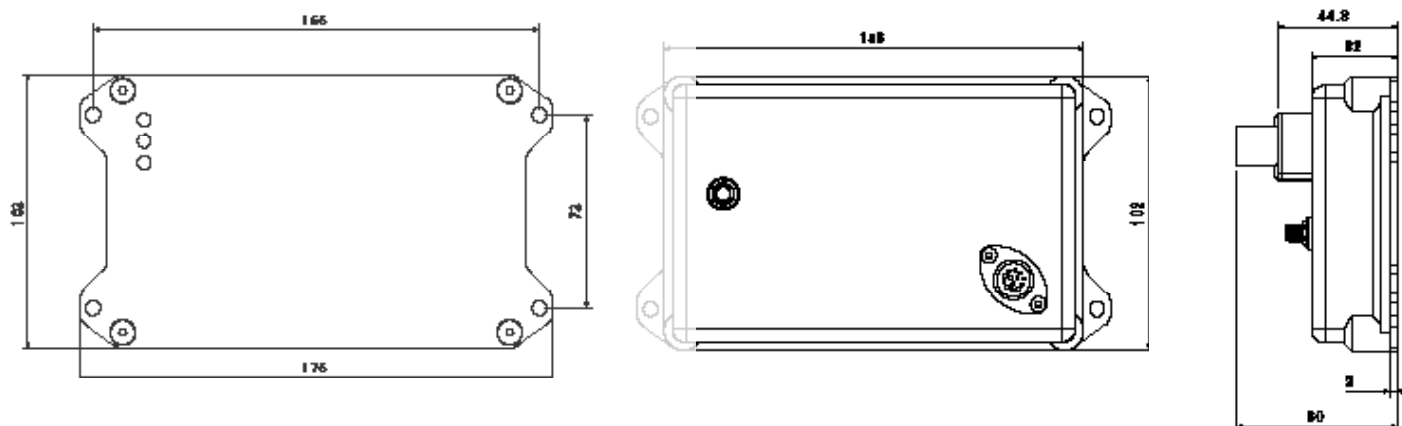

WATERPROOF ALUMINUM HOUSING

OPTIONNAL :

1. 20 Hz GPS embled with 3 accelerometers (GPS)
2. Extension to 37 analog inputs mode
3. WIFI module : real time communication
4. Spécific configuration customer requirement
5. Performance analyser with predictive laptime

EMBEDDED HIGH TECHNOLOGY FOR RALLY, TRACK, OFF ROAD, ATR ...

DIMENSIONS

TECHNICAL SPECIFICATIONS

Channels	Max channel recorded 1 to 400
Freqency	1 to 200 Hz
	Max 40 channels at 200 mz
Alert / Diag	3 RGB
Can communication	1 x 20b terminated or not + 1 optional
Can Protocol	DTA, Sodemo, Motec, Cosworth, Magneti-Marelli, E-Race, Life racing, simulator, AEM, ...
WIFI	
USB	Full speed
Weight	750 gr
Temperature range :	- 20°C to 80°C
Voltage	8 to 19 V/650mA
Data logging memory	4 G bytes/1kHz
Waterproof	IP65

REFERENCES

Data logger NT standard: 13 pin autosport connector, no data logging features

Options :
- • Data table configuration
- • GPS : includes a 20hz GPS inside and one external active antenna
- • 37 pin autosport additionnal connectors
- • E-race analyser
- • WIFI Communication, Connection to wifi sensor
- • WIFI Real time transfert to E-race, PC, Dash
- • Simulation connection (RFactor 2, Assetto corsa, ...)
- • Spécific configuration customer requirement
