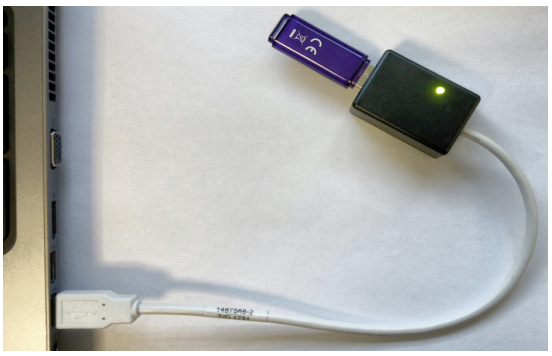
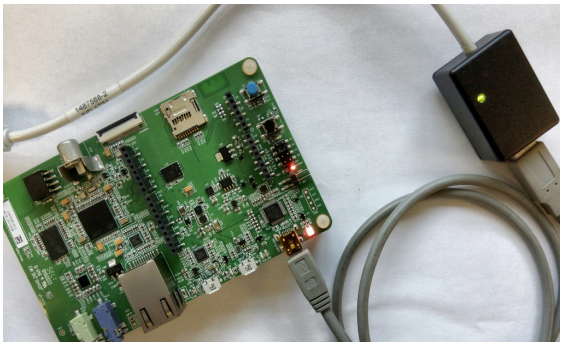
UIM-100 USB ISOLATION





USB ISOLATION BETWEEN A COMPUTER AND ANOTHER DEVICE

This module provides a complete galvanic isolation for devices that need to communicate with a computer through an USB connection.

This way, the communication is possible without any electrical direct connection and the computer is perfectly protected against overvoltages and current peaks.

It is also very easy to use: Plug&Play device.

CONNECT ANY DEVICE TO YOUR COMPUTER WITHOUT ANY RISK

- COMPACT
- EASY TO USE
- ENHANCED PROTECTION
- UNINTERRUPTED COMMUNICATION GUARANTEED
- USB 2.0 FULL AND SLOW SPEED COMPATIBLE
- POWER

SIMPLE, SECURE, RELIABLE.

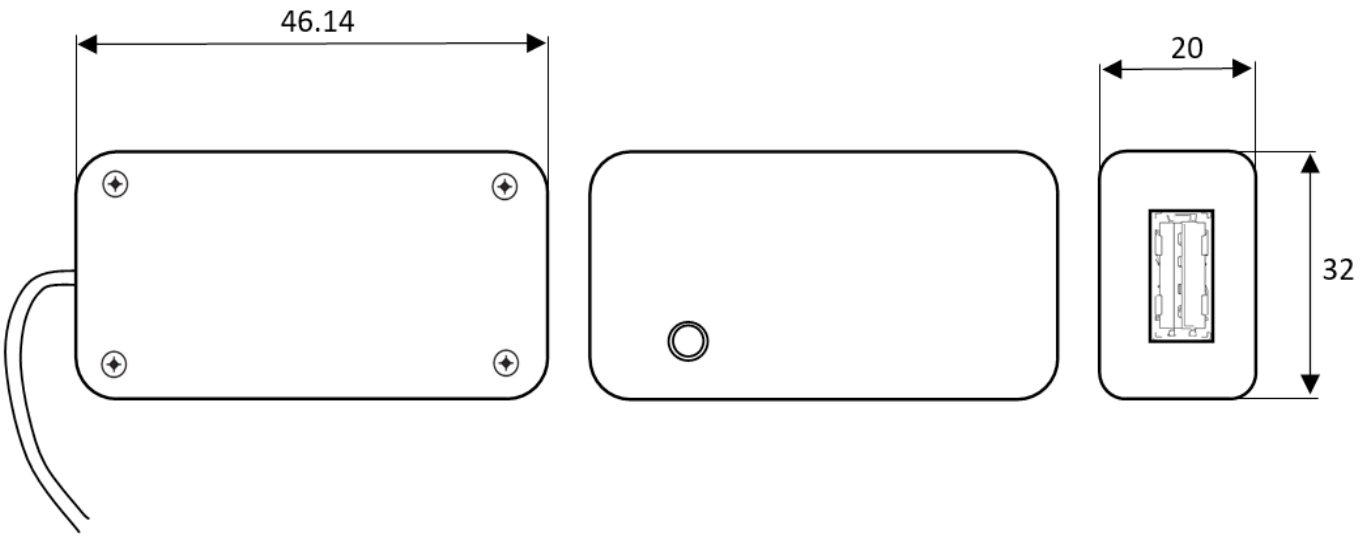
DIMENSIONS



TECHNICAL SPECIFICATIONS

Power supply Led	1
USB Type	USB 2.0
Input	A type USB Male
Output	A type USB Female
Input voltage	5V / 500 mA
Output voltage	5V / 200 mA
Data transmission	Bidirectional
Temperature range	0 °C to 70 °C
USB Speed	Full speed (12 Mbps) and low speed (1.5 Mbps)
Isolation voltage	2500 Vrm
Cable Length	2 m
Weight	80 gr
