

DRIVER RC-100

KEEP COOL & FOCUSED DRIVE SAFER & FASTER

Our cooling system for driver can be installed anywhere in the car.

It will send refrigerated water through small pipes. Drivers will stay always focused in their driving.

RacingCool by XAP will refresh the driver in real condition using an specific FIA homologated shirt.

Compared to other system, our system can be used without any time limit.

There is no extra cost (Dry ice) by using our RacingCool
